

ACADEMIC AND CAREER PREPARATION

Diana Orejuela

English Language Studies (ELS)

I arrived in Canada with the high expectation of being a registered nurse. I found many issues on the way, but also many ways to solve them. I'm glad to have started at the right place. My ESL experience at KPU was the biggest opportunity to learn and interact with those who came from different places in the world. I have had an extraordinary group of teachers and an excellent and organized program, which I consider the pathway through university life. I reinforced my knowledge and critical thinking by learning and tutoring others in ePortfolio work. Also, I met a diverse group of people who are my friends, which helps me to make my university life more enjoyable. In a nutshell, I encourage those who want to succeed as university students in BC to start here. KPU English classes. Thanks to all my ELST teachers for their professionalism and support.
